# Drop Rate Guide

## Introduction

There are certain ways in Runerealm to get a boost to your drop rate. In this guide I will give a small explanation about drop rates and how you can boost your drop rate.

## Drop rate background information

Most killable npc's have a drop table. On this drop table are various items which have a chance to be dropped when this monster is killed. These items are categorized from 'always', to 'very rare'. You can examine a monster to see their drop table, or go to player management settings, player panel (3rd tab), drop table guide. You can look up a certain monster or item on drop table guide. If there isn't shown a drop table when you examine a monster, they'll most likely won't drop anything.

Most npc's drop 2 items every time you kill them, one which is bones, and an item on any of the drop table other than always.

**Drop Table Guide - 1 Result for "zulrah"**

Name: Zulrah  
Level: 725

Search for item	Always	Common	Uncommon	Rare	Very Rare
Zulrah	300 	2500 	3000 		 1 / 3,000
		10000 	5000 		 1 / 1,024
		35 	15000 	25 	 1 / 1,024
		12 	50 	10 	 1 / 1,024
		35 	2000 	30 	1 1 / 256

Every item has a certain numeral rate to drop. For example, chicken have a 1/1, or 100% chance to drop bones, and a 3/4, or 75% chance to drop feathers. This however does not mean it is guaranteed. For example, a 1 in 10 drop rate does not mean you will always get that item after, or within 10 kills. See it as throwing a dice with 10 numbers, there's a 1 in 10 chance you will hit the number 10, but that doesn't mean you will always hit it when you throw the dice 10 times.

All of the very rare items have shown a numeral drop rate on the drop table. If you examine a monster, your drop rate modifier is shown in chat and you will be shown it's drop table with your current drop rates of that monster. If your drop rate modifier is 0% you will see the base drop rates.

# Drop rate modifiers

The following will increase your drop rate and stack with each other:

## **Extreme account: +20%**

When you make a fresh character you can choose what type of account you want, Normal, Ironman, Hardcore Ironman or Ultimate Ironman. You can also choose for an Extreme, Extreme Ironman, Extreme Hardcore Ironman or Extreme Ultimate Ironman. Picking any of the Extreme variants will boost your drop rate with 20% at the sacrifice of 40x xp rates (Normal accounts have 50x the OSRS xp rates, Extreme accounts 10 times). This will always be active.

## **Ring of wealth (i): +2.5%**

Wearing a ring of wealth (i) while killing a monster increases drop rate by 2.5%. You can obtain a ring of wealth (i) by enchanting a regular ring of wealth with a ring of wealth scroll or buying one from another player. Ring of wealth scrolls can be obtained by buying them from another player, getting them as a reward from the event chest, or from one of the following shops: vote points store, slayer points store, blood money store, or bounty hunter store. The effect will only be active

if you have the ring equipped when you kill the monster. You can wear another ring while damaging the monster, the drop is determined on landing the finishing blow on the monster, so make sure you equip or RoW (i) before this occurs.

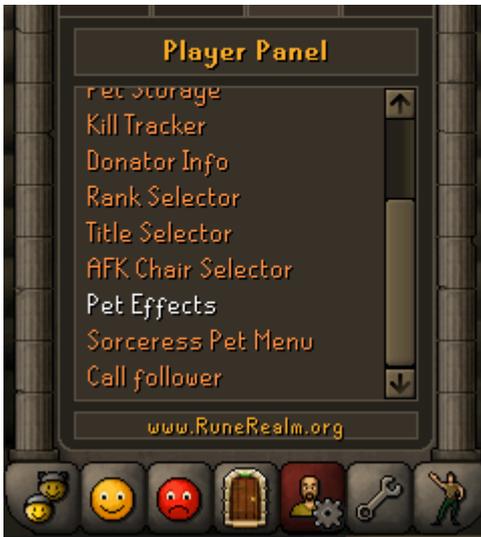

*Side note: You can obtain a Lucky Ring by creating one with a 'Perfect' Gold bar and a Lucky gem. You can imbue this ring with a Lucky Ring imbue scroll, obtained as a reward from the Corporeal Beast collection log, which will give you the same 2.5% DR Reduction as the Ring of Wealth (i). The Lucky Ring (i) can additionally be combined to make a Commander ring (i).*

### **Genie pet/Master Alex pet: +2.5%**

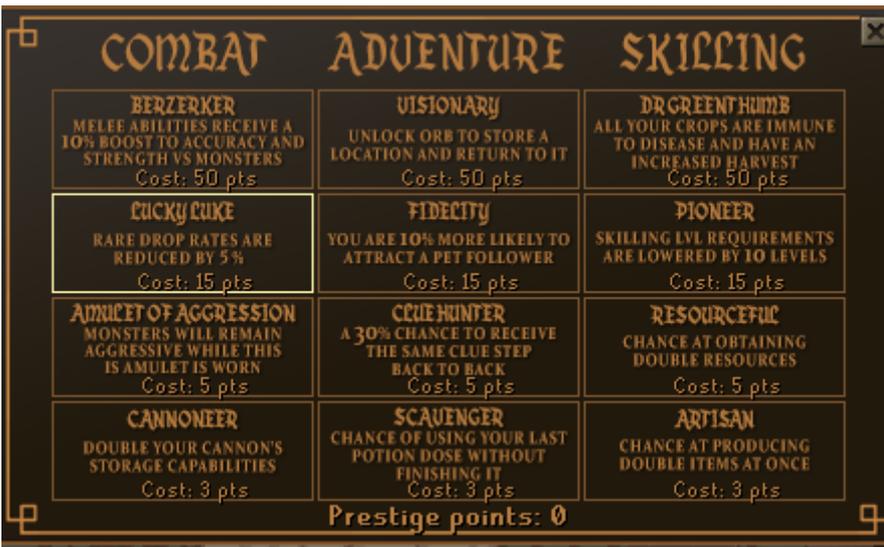

If you've obtained a Genie pet you get your drop rate boosted by 2.5%. You can obtain this pet by buying it from the boss points store or the Runerealm credits store (Donator Guide at ::Home) this will only be active if you have the pet effect on. You can have different pets following you and other pet effects on. For example, you can have a pet Zulrah follow you, while having the Genie pet effect on. To make sure this pet effect is on, go to player management settings, player panel and click on pet effects. As Master Alex is a combination of Mini Alex, Genie pet and Skiller pet, it will work the same as genie pet. Extreme donators can have 2 pet effects on at the same time, elite sponsors 3. You can't however have Genie pet effect and Master Alex effect on at the same time.

### **Lucky Luke ability: +2.5%**

You get an extra 2.5% boost to your drop rate if you have unlocked the Lucky Luke ability. You can unlock this ability at Patchy, he is on the southwest side of home. Unlocking abilities require you to prestige skills. You can prestige a skill when you've reached level 99. Talk to Patchy or right click him and select prestige. Prestiging a skill will set your level back to 1 and XP to zero, but will give you a monetary reward and a prestige point. Extreme account receive 3 points for prestiging a skill. You can prestige a skill up to 10 times, making the maximum amount of points for regular accounts 220 and for extreme accounts 660. To unlock an ability, talk to Patchy or right click him and select abilities. There are 3 categories and each category has 4 abilities. Going from bottom till top, you have to unlock the previous ability first to unlock the one above. So to unlock Lucky Luke, you have to unlock Cannoneer and Amulet of Aggression first. The first ability requires 3 points, the second one 5 points and the third one 15 points, so to unlock Lucky Luke, you will need a total of 23 points. Once you've unlocked this ability, the effect will always be active.

### Donating: up to 25%

You can buy credits and other items in the Runerealm store for real money. You'll unlock ranks when you've spend a certain amount of money. Each rank gives your drop rate a boost. Go to [www.runerealm.org/store](http://www.runerealm.org/store) for more information about donation benefits and prices. The following ranks are achievable with their respective drop rate boost:

***Super Donator: 5% boost***

***Extreme Donator: 10% boost***

***Sponsor: 15% boost***

***Super Sponsor: 20% boost***

***Elite Sponsor: 25% boost***

As soon as you've unlocked a rank the drop rate boost will always be on. Side note: you will get the drop rate from the highest donator rank you've unlocked, they do not add up.

***Pet Walkchaos: +2.5% in wilderness only***

The Walkchaos pet can be obtained as a drop from the Walking Chaos boss. Having this pet effect on will boost your drop rate in the wilderness by an extra 2.5%. If you are an Extreme Donator or higher you can have both Genie/Master Alex and Walkchaos pet effect on at the same time.

---

***Drop rate event***

Every 30 minutes, a game-wide event will happen. One of these event is a drop rate boost event. Everyone's drop rates will be boosted on all bosses and minigames, increasing your chance of a rare drop by 5%!

***Summary:***

Having everything stated above with the highest donator rank can result in the following drop rate increases:

RoW (i) 2.5%

Lucky Luke Ability 2.5%

Genie/Master Alex pet effect 2.5%

Donator rank (up to) 25%

Drop rate event 5%

**Total Normal accounts: 32.5% or 37.5% with the drop rate event on (35% in wilderness with Walkchaos pet or 40% if there is also a drop rate event going on)**

You will receive a 32,5% boost of rare drop rates.

Extreme account 20%

RoW (i) 2.5%

Lucky Luke ability 2.5%

Genie/Master Alex pet effect 2.5%

Donator rank (up to) 25%

Drop rate event 5%

**Total Extreme accounts: 52.5% or 57.5% with a drop rate event on (55% in wilderness with Walkchaos pet or 60% if there is also a drop rate event going on)**

You will receive a 52,5% boost of rare drop rates.

### ***Raids side note***

The way a drop is calculated in raids is different than monsters in the open world because you get points for your actions. I advice you to read one of our raids guides to find out how drops are calculated and how your drop rate boost can effect this:

<https://wiki.runerealm.org/books/raids-guides>

### ***Skull side note***

Being skulled, via either the ::skull::redskull command, the Amulet of Avarice, or attacking another player, will increase your drop rate by 10% at Revenants and Crystal monsters in the wilderness. You can easily check this yourself by comparing the table before and after skulling (while inside the wild).

 171,280	 171,024
 171,280	 171,024
 171,280	 171,024
 171,024	 17,819

(50% vs 60% at Revenant Imps)

### **Superiour Slayer side note**

Superiour slayer monsters have a base drop rate, shown when examined or looked up in the monster drop table guide in-game. They have a certain chance to spawn on a slayer task when killing their regular variant. Superiour slayer monsters can also be found in a cave below the Sponsor-Zone, only accessible for Sponsor and above donator ranks. The drop rates in these caves have been multiplied by the chance you would have one spawn on a slayer task outside of the cave. This makes the droprate somewhat similar to what it is to be killed outside the cave.

TL;DR: Base drop rate X chance to spawn on slayer task = drop rate inside Superiour Slayer cave.
